Majestic Steel Staircases – there is a real difference

Welcome to Majestic Stairs

For over 30 years we have been acknowledged as the staircase industry leaders in design, quality, innovation and customer service; all our creations are carefully manufactured by skilled craftsmen from the very best materials available ensuring each one is a unique masterpiece.

The staircase is one of the first things seen when entering a modern house and has become a status symbol that says so much about the home and even more about the people that live there and their style. A steel staircase can create a magnificent, lasting first impression that any form of concrete stair simply cannot match.

Every staircase we create is custom designed for the unique situation it will occupy, being individually drawn, manufactured and installed with care by our experts to stand up to the demands of today's households.

In this brochure you will find a selection of different styles to browse through showing the very latest trends in steel stairs and all featuring our unique methods of construction and quality hardwood treads; we fully believe in our products, are proud to stand behind the Majestic Stairs name and warranty all of our staircases for a full 10 years.

Drop into our Maylands showroom, visit our website, majesticstairs.com.au, or call us on (08) 9272 7011 to discuss with one of our experts what we can create for you.

MEMBER
you're in good hands

Cantilevered Staircase - Peppermint Grove

We wanted a cutting edge centre piece for our new home and following a recommendation from our architect approached Majestic Stairs for a solution. From the second we walked into their showroom we knew we had found our answer. The depth of knowledge imparted by Chris and the way he explained everything in a no-nonsense easy to understand way made our final decision simple. Now fully installed our staircase is a beautiful work of art that perfectly complements our home. Thanks to all and very well done.

Portia Dehaan

Floating Staircase - Coogee

Very rarely these days do I have cause to put pen to paper to praise someone, but feel I really must communicate how happy my wife and I are with the floating steel staircase that your company recently installed for us. The quality of the powder coat finish on the steel is exceptional and the Blackbutt wood absolutely superb. Your tradesmen were very courteous and minimised the disruption to our business and were amazingly tidy. Please thank everyone involved for us.
